

Häfele Ixconnect UC 16/64 universal connector

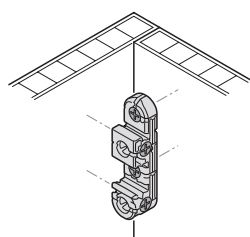

3

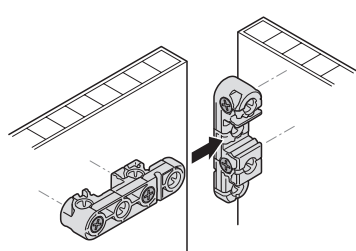

Connector Technology

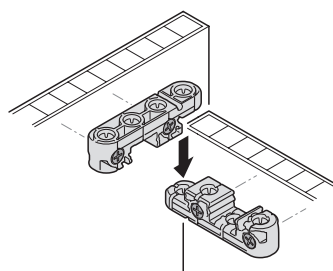

clipped on (can be separated thanks to clip springs),
screwed on or recessed

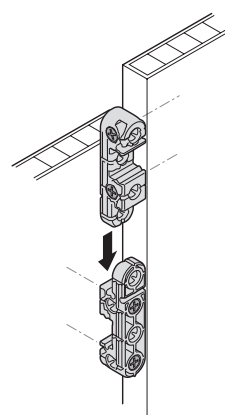

screwed on, e.g. for corner connections

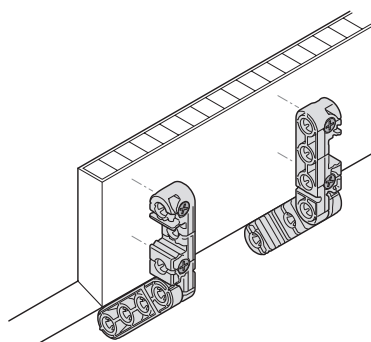

slid on,
connection stabilised with snap-in points

hooked in,
connection stabilised with snap-in points

hooked in,
connection stabilised with snap-in points

reversed mounted connection pairs
prevent lateral movement

- > One fitting for countless applications
- > Reduction of stocks, since no distinction is made between frame and panel component
- > Easy installation by sliding on, hooking in, snapping in
- > For removable, concealed connections

- > Area of application: Trade fair construction and store fixtures: Wall cladding (with and without substructure), wood panelling, partition walls, anti-fall panels
Furniture construction: Corner connections, surface connections (flush or with 8 mm offset), detachable connections of panels and fitting strips, doubling, as furniture foot, for cable routing, etc.
- > Dim. (L x W x H): 64 x 16 x 16 mm
- > Installation: For screw fixing with chipboard screws Ø 4 mm or Euro screws for drill hole Ø 5 mm, for recess mounting (optional), suitable for screw fixing in 32 mm series drilled holes
- > Functionality: Connection with clip spring and snap-in points, variable screw-on and snap-in positions for hooking in from the front, from above or at side, 90°, 135° or 180° angle possible, the strength of the snap-in connection can be varied by the number of connectors

Material	Finish/colour	Cat. No.
Polycarbonate	Black	262.00.100

Packing: 25, 250 oder 20,000 pieces
